

Snowmass 2022: Connection between neutrino mass models and muon experiments

Friday, 5 August 2022 11:15 (40 minutes)

We explore the connection between neutrino mass models and muon experiments, esp. those looking for charged lepton flavor violation.

Attendance type

Virtual presentation

Primary author: HEECK, Julian (University of Virginia)

Presenter: HEECK, Julian (University of Virginia)

Session Classification: WG5: Beyond PMNS

Track Classification: WG5: Beyond PMNS
